Who is experiencing the problem: Those who lack motivation towards exercise and/or would like to keep up with other friend's fitness.

What is the Problem: People lack the motivation to work out.

Where does the problem present itself: The problem presents itself when someone lacks the motivation to work out.

Why does it matter: Physical fitness brings a better quality of life, improved mental health, and increased sleep.

Statement: Many people today experience a lack of motivation towards exercise so to keep up the motivation we created an app that encourages physical activity bringing a better quality of life.
